

Geography – South America

This term in geography we will be looking at the human and physical features of South America.

Activity 1

To start our topic off, we would like you to get to know the countries a little better so can you have a go at filling in the table below? You can use the internet to conduct your research.

Country	Capital	Population	Flag	Fact about the country
Brazil				
Columbia				
Argentina				
Peru				
Venezuela				

Chile				
Ecuador				
Bolivia				
Paraguay				
Uruguay				
Guyana				
Suriname				

Activity 2

Can you colour each country in a different colour and use the key. Once you have done that, can you label the oceans around the edge of the continent?

Activity 3

Have a look at the following website.

<https://www.kids-world-travel-guide.com/south-america-facts.html>

Read all the facts and make a note of the ones you think are most impressive then you can share these once we are back at school!

Activity 4

Have a go at this game.

<https://www.sporcle.com/games/eon/find-the-south-american-countries>

On your first attempt, you can use the map you coloured in the other day.

After that, try to do it from memory!

Activity 5

Create a board game that will help people learn all about South America.

It could have questions or just facts.

You can include everything you have learnt in the previous 4 activities.

Please either take a photo of you playing your game or bring it in to school when we are back!
