

Maths for the week beginning 13th July 2020

We are continuing using Oak National Academy. The site has been set up by the government to provide home learning lessons for most subjects. There is still a specific maths focus for both year groups and there are still input videos for you to watch. The work for year 3s is to about Time. For year 4s, the focus is on reasoning with patterns and sequences

There are 5 lessons to complete and each lesson has its own link. Once you click on the link you then click start lesson and follow the instructions. The lessons have a beginning quiz and a video for you to watch. During the video, you will be asked to pause and answer some questions using the online worksheets. Once you have completed the worksheets there is an exit quiz. You will not need paper copies of the worksheets for these lessons. All you will need is your workbook, a pencil, a rubber and a ruler.

The lessons below are revision activities to remind your child of some of the work we have already covered in school. Please do not worry if your child seems to have forgotten the work, this is very normal. If they don't manage to complete the work in one go, your child can always repeat or continue the activity the following day. With regard to printing the worksheets, the sheets are not downloadable from the Oak Academy website and some of the lessons have more than 2 activities (sheets) per lesson, therefore, it is not feasible for school to print that many sheets. Please follow the guidance within the videos and you will find that you will not need them. As you know, we value your feedback so please let us know how you are getting on with this new structure.

Best wishes from Mrs B, Mrs P, Mrs S and Mrs A

Year 3 Maths

These lessons are revision lessons but they are designed to recap and make sure you understand the main concepts that you will need for your maths work next year.

Mon	Complete Lesson 1: To develop an understanding of clocks from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/develop-an-understanding-of-clocks
Tues	Complete Lesson 2: To tell the time to 5-minute intervals on an analogue clock from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/tell-the-time-to-5-minute-intervals-on-an-analogue-clock
Wed	Complete Lesson 3: To tell the time to 1-minute intervals on an analogue clock (past the hour) from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/tell-the-time-to-1-minute-intervals-on-an-analogue-clock-past-the-hour
Thur	Complete Lesson 4: To tell the time to 1-minute intervals on an analogue clock (to the hour) from Oak National Academy. Please click on the link below to access the lesson video then complete the work sheets. https://classroom.thenational.academy/lessons/tell-the-time-to-1-minute-intervals-on-an-analogue-clock-to-the-hour
Fri	Complete Lesson 5: To use a duration to find a start and finish time from Oak National Academy. Please click on the link below to access the lesson video then complete the work sheets. https://classroom.thenational.academy/lessons/to-use-a-duration-to-find-a-start-and-finish-time

Year 4 Maths

These lessons are revision lessons but they are designed to recap and make sure you understand the main concepts that you will need for your maths work next year.

Mon	Complete Lesson 1: To investigate the place value of different number systems from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/to-investigate-the-place-value-of-different-number-systems
Tues	Complete Lesson 2: To investigate Roman Numerals up to one hundred from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/to-investigate-roman-numerals-up-to-one-hundred
Wed	Complete Lesson 3: To identify and complete number sequences from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/to-identify-and-complete-number-sequences
Thur	Complete Lesson 4: To investigate number patterns from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/to-investigate-number-patterns
Fri	Complete Lesson 5: To investigate a number pattern from Oak National Academy. Please click on the link below to access the lesson video then complete the worksheets. https://classroom.thenational.academy/lessons/to-investigate-a-number-pattern
