We ask that only **one** parent/carer drops off and picks up to reduce the congestion and risk of transmission outside of school. Parents/carers are also asked not to come into the school grounds, unless instructed to do so by a member of staff.

Timings are crucial so please ensure you are on time and social distance in the lines. Staff will be out in the playground ready to welcome your child into school.

Due to excellent parental support, this has so far been a very successful way for children to safely arrive and leave school. Time at the gate has been allocated for you to continue to say “goodbye” in your usual way – we understand leaving your child at the gate can feel strange.

I will continue to review these times, making changes only if necessary due to updated guidance or to improve further the safety of the children.

The government are still, at this moment, recommending parents limit the number of settings children attend. However, if your child needs to attend a wrap-around group/club please to make sure they know the correct times to drop off and pick up.
